Note：1. According to Article 13, Paragraph 6 of the National Pension Act, at the end of May and Nov., the premium paid by government should be calculated based on premiums paid by the insured in the previous 6 months. The data includes subsidized insurance premiums from Dec. of the previous year to Nov. of the current year for substitute service draftees and insured who suffered from disasters. It also includes the post-pandemic budget from Mar. to Dec. 2023 (including subsequent offset amount).  
2. The grand total of persons is the sum of pension recipients at year-end and lump sum benefit cases.  
3. Payments of insurance shall be paid by National Pension Fund. Difference of pension shall be subsidized by the central competent authority. Basic guaranteed pension shall be paid by the budget of central competent authority.  
4. The data of National Pension benefit payments doesn't include the re-examination fee. The data of "Persons (End of year)" is based on Dec. of the current year.
